What if someone else found your time capsule?

1. Close your eyes and remember the time capsule you made. Remember the letter you wrote, and the photos and treasures you put in with it.

You're planning to dig it up again in a year's time. But what if you don't? What if you forget all about it, and it stays hidden for a *hundred years*?

Until someone finds it.

2. Who finds it? What do they think it is when they first see it? How do they react when they open the jar? How is their life like yours? How is it completely different? How does finding your time capsule change their life?

3. Write A) a story that starts just before they find the time capsule
or B) A report about the find for the world news.
